# Top 5 channels with maximum subscribers

Subscribers

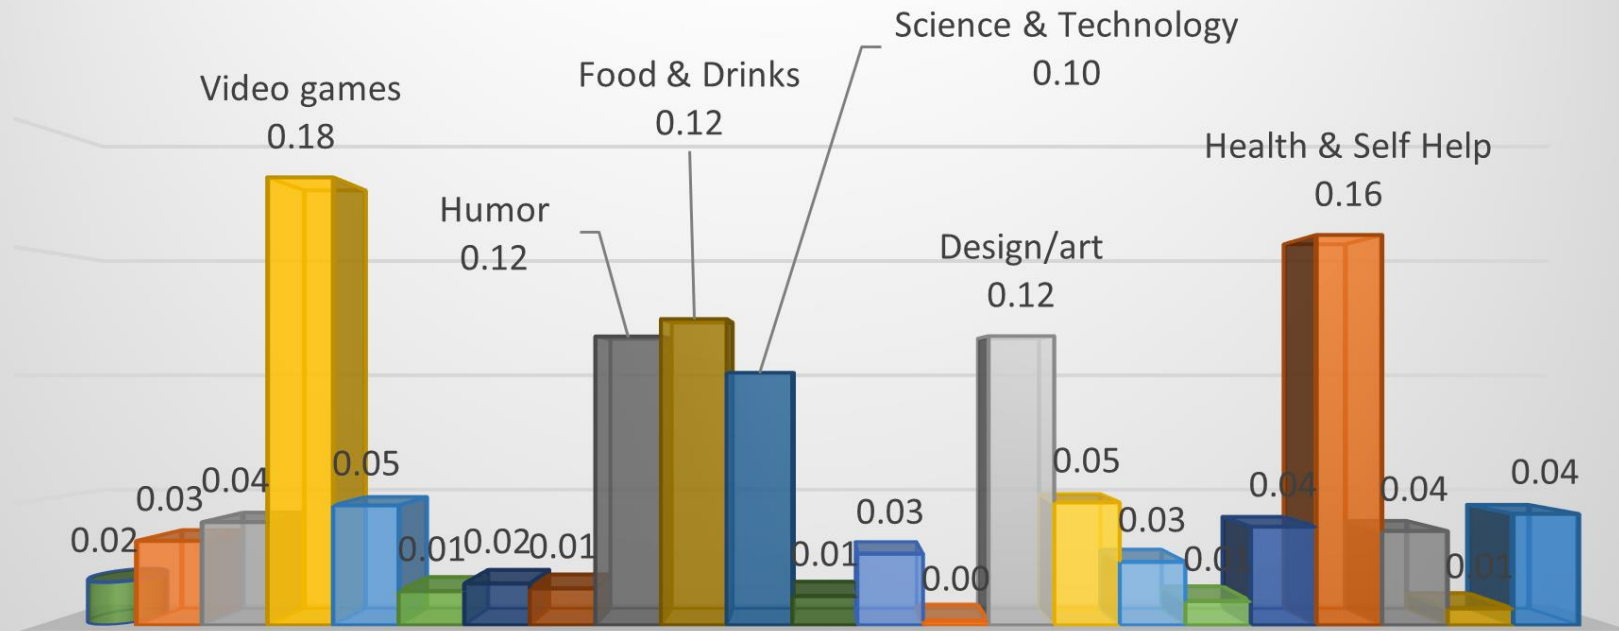

# Top YouTube Channels

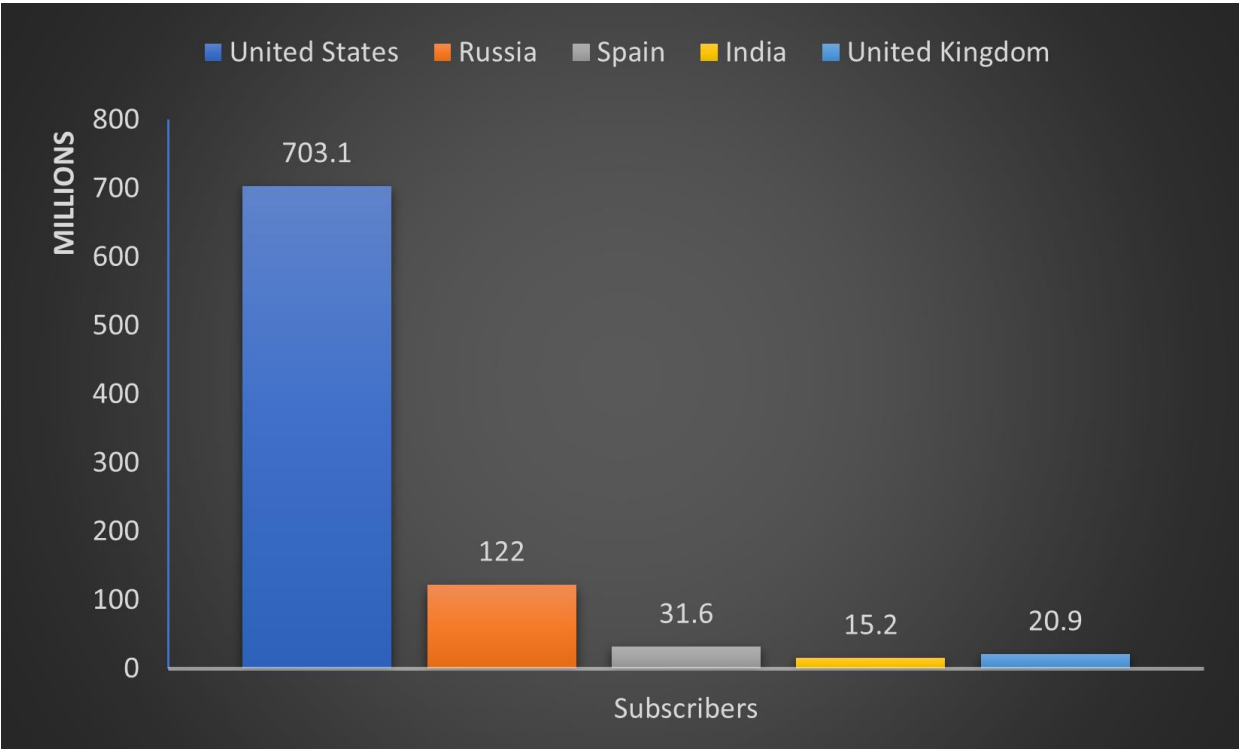

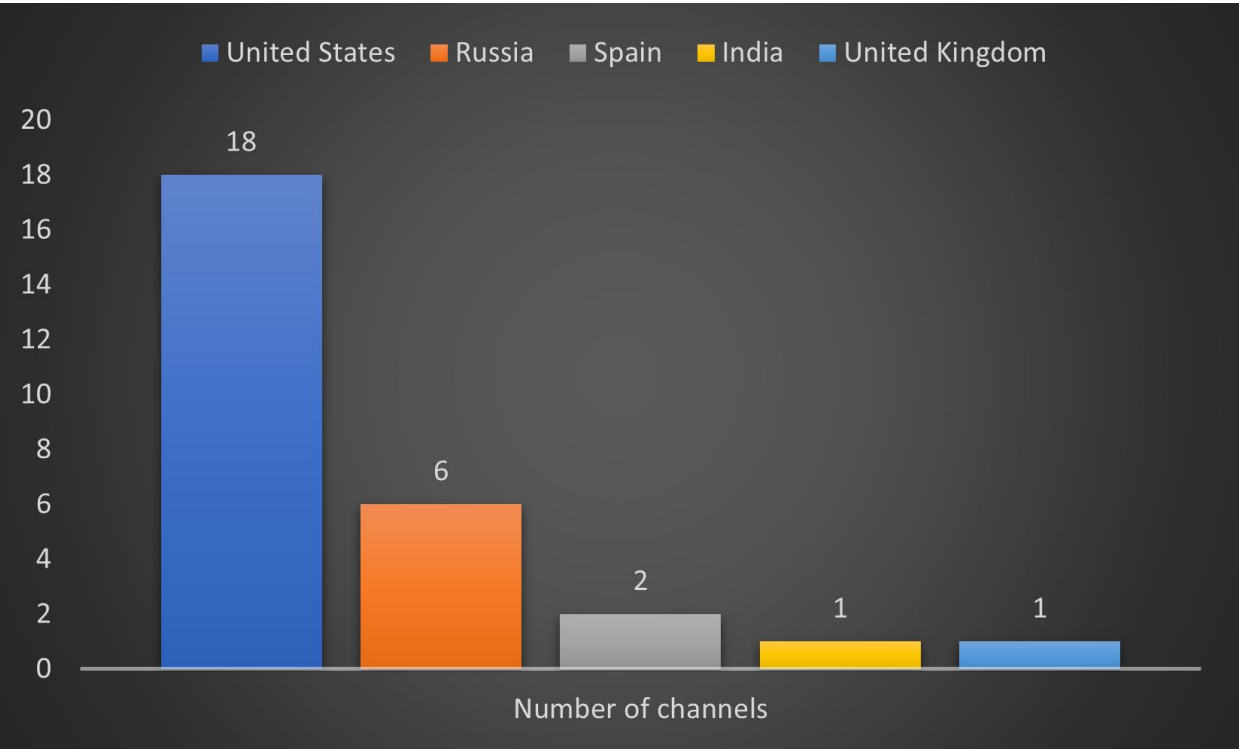

The above pie charts describes the distribution of Top 1000 YouTube channels across various categories along with their subscribers. As can be seen, the top five positions are held by Music and dance, movies, animation, video games and daily vlogs.

# Ratio of Views and Subscribers for a category

- |                  |                    |                        |                      |
|------------------|--------------------|------------------------|----------------------|
| ■ Music & Dance  | ■ Movies           | ■ Animation            | ■ Video games        |
| ■ Daily vlogs    | ■ News & Politics  | ■ Education            | ■ Toys               |
| ■ Humor          | ■ Food & Drinks    | ■ Science & Technology | ■ Sports             |
| ■ Fitness        | ■ DIY & Life Hacks | ■ Design/art           | ■ Autos & Vehicles   |
| ■ ASMR           | ■ Travel           | ■ Beauty               | ■ Health & Self Help |
| ■ Animals & Pets | ■ Fashion          | ■ Mystery              |                      |

Since, Video games have the highest subscribe-view ratio, we will analyse the category further to understand it better.

It is quite surprising that UK and India have only one video game channel in top list, whereas USA tops the list with 18 video game channels and total of 703.1 million subscribers!
